

This is not our boardroom.
(and wouldn't be anyway)

We dedicate
our treatment centre facilities
entirely to successful outcomes
for young people....

... while our community partners
generously provide space
for our regular board meetings.

Thrive

Child and Youth
Trauma Services

prevention *education* treatment

As a Member of our Board of Directors...

you'll join other dedicated and passionate community members in our critically important mission: Prevention, Education and Treatment for Child and Youth Trauma *including Sexual Abuse*.

We believe thriving children create thriving communities.

Since 1976, a remarkable group of individuals have supported that vision as governance volunteers.

We are impact-focused, knowing that our community is better when we create the conditions necessary to achieve our mission.

Our priority in board recruitment is to ensure we engage the best of our community's diverse talents.

- If you want to spend quality time on strategic thinking in preference to reviewing financial statements...
- If you are passionate about our cause...
- If you share our vision...
- If you have a few hours each month...

... we invite you to consider joining us.
